

THE IMPORTANCE OF ROOF EVALUATIONS

What Condition Is Your Roof In?

Since 1993, the name Versico Roofing Systems has been synonymous with high-quality, innovative commercial roofing products.

Versico is not just a leading manufacturer of single-ply roofing systems for the commercial building industry, it is also the leading solutions provider for building owners. You can rely on the expertise of Versico's team to help determine the right roofing system for your project. Whether your building needs extra resistance to hail, wind, or frequent roof traffic, or you are looking for the most energy-efficient roofing system, we can help.

TRUE ROOF RATER

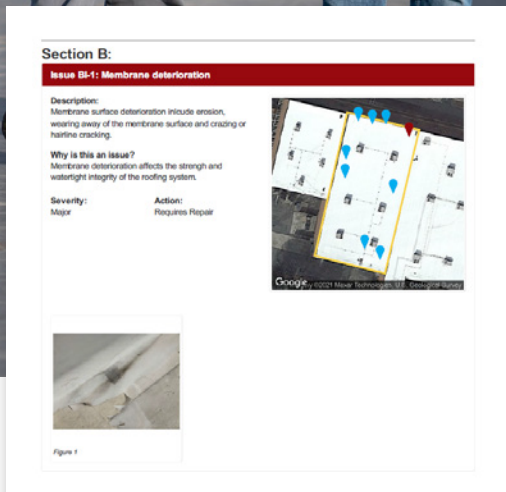

Having trouble with a commercial roof?

The roofing experts at Versico are focused on helping building owners to make the best roofing decisions for their particular facility. Using proprietary True Roof Rater® software, Versico offers free evaluations of your existing roofing system and provides you with a detailed written report that includes photographs and recommendations for any repairs that may be necessary. If roof repairs or replacement is needed, Versico can assist with finding an Authorized Roofing Contractor for your project. No purchase or obligation is required.

True Roof Rater features include:

- Web-enabled GPS and mapping technology that provides a comprehensive view of the roof
- Easy-to-use drawing tools to paint a complete picture
- Recommendations on repair solutions
- Instant delivery of the proposal from the app or save it to your account

Versico is proud to provide an industry-leading selection of single-ply roofing membranes to suit virtually any project or specification, including VersiGard® EPDM, VersiWeld® TPO, VersiFlex™ PVC, VersiFlex KEE HP PVC, and fleece-backed membranes. Versico also offers a full line of labor-saving flashing accessories, insulation and coverboards, Roof Gardens, edge metal, and skylights.
