## **Section 5 - FIRE FIGHTING MEASURES**

---

### **Extinguishing Media**

#### **Suitable Extinguishing Media**

Water spray, foam, dry chemical or carbon dioxide.

#### **Unsuitable Extinguishing Media**

Do not scatter spilled material with high-pressure water streams.

### **Special Hazards Arising from the Chemical**

Highly flammable. Vapors may travel to ignition source and flashback. Most vapors are heavier than air and will spread along ground and collect in low or confined areas (drains, basements, tanks).

### **Hazardous Combustion Products**

Carbon dioxide, carbon monoxide, Hydrocarbon

### **Advice for firefighters**

Wear self-contained breathing apparatus with a full facepiece and protective clothing.

### **Fire Fighting Measures**

Keep away from heat, sparks, open flame, and hot surfaces - No smoking. Ground and bond container and receiving equipment. Take action to prevent static discharges. Move container from fire area if it can be done without risk. Do not use high-pressure water streams. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Cool containers with flooding quantities of water until well after fire is out. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tanks due to fire. ALWAYS stay away from tanks engulfed in fire. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible withdraw from area and let fire burn.

### **Special Protective Equipment and Precautions for Firefighters**

Wear full protective firefighting gear including self-contained breathing apparatus (SCBA) for protection against possible exposure.

---

## **Section 6 - ACCIDENTAL RELEASE MEASURES**

---

### **Personal Precautions, Protective Equipment and Emergency Procedures**

Wear personal protective clothing and equipment, see Section 8.

### **Methods and Materials for Containment and Cleaning Up**

Eliminate all sources of ignition. All equipment used when handling the product must be grounded. Do not touch or walk through spilled material. Stop leak if you can do it without risk. Prevent entry into waterways, sewers, basements, or confined areas. Vapor-suppressing foam may be used to control vapors.

## Safety Data Sheet

**Material Name:** PVC and KEE HP Membrane Cleaner

**Product #:** 329729

Absorb with earth, sand or other non-combustible material and transfer to container. Use non-sparking tools during clean-up. Dike far ahead of liquid spill for collection and later disposal. Additionally, for large spills: Water spray may reduce vapor, but may not prevent ignition in closed spaces.

### Environmental Precautions

Avoid release to the environment.

---
