

VERSICO ROOFING SYSTEMS' ROOFTOP RECYCLING REBATE INCENTIVE PROGRAM

For more than 10 years, Versico has offered contractors an environmentally friendly Rooftop Recycling Program aimed at reducing the environmental impact caused by roof tear offs through national recycling partners. To help increase participation in the program, Versico has begun offering a financial incentive to contractors who utilize the Rooftop Recycling Program by offering a rebate on the materials that are used to replace the torn-off roof, when those materials are purchased and warranted through Versico.

Why?

- Reduces the cost to recycle = increased rooftop recycling.
- Versico is committed to sustainability – reducing impact on landfills is a top priority.
- Return of post-consumer recycled materials is imperative to meet our sustainability goals.
- Continuing development of new products made of post-consumer recycled content.

How it Works

- Contractor contacts Nationwide Foam Recycling or Disposal Alternatives to notify them of the project and set up a date and time for material pick up.
- When arranging the return, the contractor must notify the Recycling Partner that the roof will be replaced with a Versico Roofing Systems roof.
- Contractor must return at least the membrane to be eligible for the rebate. Torn-off/returned materials do not have to be Versico materials.
- Roof must be replaced with a Versico Total System Warranty roof system and brought up to current rooftop thermal efficiency requirements per the locally adopted energy code. The addition of a 1/2" coverboard is required at a minimum.
- When completing your Versico warranty application submittal, select "re-roof/tear off" for the "roof status". Then select the applicable Recycling Partner, Nationwide Foam Recycling or Disposal Alternatives.
- Once selected and the warranty submittal is completed, Versico will process the rebate using the project information provided. A rebate check will be sent directly to the contractor within 4 weeks of warranty close out.

REBATE PAYOUT INFORMATION

Versico will provide \$0.04/ft² based on the area of membrane recycled.
Rebate will be paid at time of warranty issuance.

A SINGLE SOURCE FOR SINGLE-PLY ROOFING
