

Accuseam Plate

Overview

Carlisle's Accuseam Plates are made of Galvalume® coated steel. The round design provides even distribution of loads and eliminates sharp corners that can damage the insulation or membrane.

Features and Benefits

- » Patented Eye Hook® design grips membrane for improved wind resistance
- » Available in 2 3/8" (60 mm)
- » Concentric rings for high strength
- » Corrosion resistant Galvalume
- » Designed to work with the Accuseam tool

Installation

1. Position Accuseam Plate as indicated by Carlisle specifications and details
2. Secure Accuseam Plate using the appropriate Carlisle fastener

Review Carlisle specifications and details for complete installation information.

Precautions

- » Eye protection is recommended during drilling and installation of plates and fasteners
- » Use care to avoid over driving the fastener
