

Metal Flat Sheet Program

Carlisle is making it easier than ever for edge metal to be covered under the Edge-to-Edge Total Roof System Warranty. Contractors can now use Carlisle metal flat sheets to shop-fabricate coping and fascia for inclusion in Edge-to-Edge Warranties (up to 20 years with up to 80 mph peak wind speed coverage). This provides contractors with the flexibility to fabricate their own edge metal while still delivering superior warranty coverage backed by Carlisle.

THE EDGE-TO-EDGE TOTAL ROOF SYSTEM WARRANTY

UP TO 20 YEAR/80 MPH WARRANTY COVERAGE

Carlisle's Metal Flat Sheet Program offers authorized applicators the opportunity to include shop-fabricated edge metal in Edge-to-Edge Total System Warranties when purchased through the channels listed below.

For warranty inclusion, all shop-fabricated fascia and/or coping must comply with Carlisle's published specifications and details (refer to the Edge Metal section of the Carlisle Specification Supplement: G-11-18).

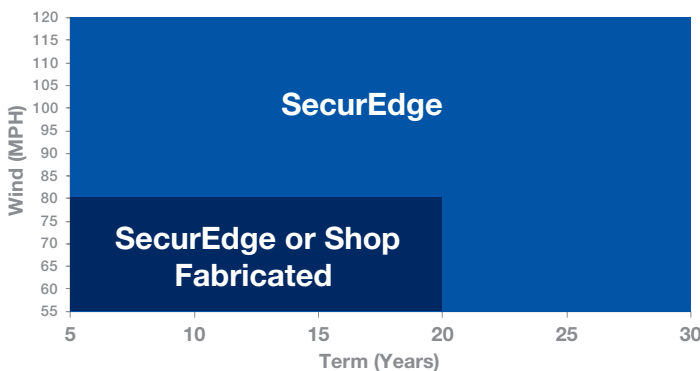

Carlisle Flat Sheets

Authorized applicators can shop-fabricate Carlisle SynTec flat sheets and submit for Edge-to-Edge Warranty inclusion.

Carlisle Prefabricated Cleats

When using Carlisle's prefabricated cleats/anchor bars and shop fabricating the face covering, you may be eligible for an increased wind speed warranty.

Shop Fabricated vs. SecurEdge

METAL FLAT SHEET OFFERING

- » Flat sheets are available in a wide range of steel and aluminum. Available in over 30 Kynar colors, flat sheets are available in 22 and 24 gauge galvalume steel and .032", .040", .050", and .063" aluminum.
- » Carlisle's SecurEdge™ prefabricated edge metal products are also covered under the Edge-to-Edge Warranty and can be used on projects with warranties up to 30 years/120 mph, or when ES-1 testing and FM approval are required.
