

SecurShield® HD NH Polyiso Cover Board
October 22, 2026

To: Versico Roofing Systems' Independent Sales Representatives, Distributors, and Authorized Contractors

Versico Roofing Systems is proud to announce the expansion of its non-halogenated (NH) polyiso insulation portfolio with the introduction of **SecurShield HD NH Polyiso Cover Board**. This innovative solution delivers the durability, thermal performance, and sustainability attributes that today's commercial roofing projects demand.

SecurShield HD NH Polyiso Cover Board is a high-density roof cover board engineered to provide exceptional protection and long-term roof system performance. Featuring a closed-cell non-halogenated polyiso core bonded to durable coated glass facers, SecurShield HD NH offers an R-value of 2.1, outstanding resistance to hail, rooftop traffic, mold, and moisture, and compressive strengths of up to 109 psi. Its superior durability makes it an ideal choice for both new construction and re-roofing applications where enhanced roof system resilience is critical.

SecurShield HD NH provides architects, consultants, contractors, and building owners with versatile roofing insulation solutions that support project performance goals while aligning with evolving sustainability objectives. By combining robust physical properties, proven thermal performance, and non-halogenated technology, this product reinforces Versico's commitment to delivering innovative materials that meet the needs of today's commercial building industry.

Product Code	Description	Boards per pallet	Pallets per truck
373551	0.5 HIGH DENSITY CGF-CGF NH 48X96 PK	45	48
