

VersiFlex™ PVC 110-mil Walkway Roll
September 11, 2020

To: Versico Roofing Systems' Authorized Contractors

Versico Roofing Systems is pleased to introduce a new VersiFlex PVC Walkway Roll. This new heat-weldable walkway roll is 110 mils thick to provide superior protection for PVC and KEE HP membranes in areas exposed to repetitive foot traffic and other hazards. Additionally, the new walkway roll features a herringbone tread pattern for increased slip resistance.

This new 110-mil walkway roll will replace the existing 80-mil VersiFlex PVC Walkway Roll, which will be available until inventory is depleted.

Product Code	Color	Packaging	Size	Weight	Stocking Location
336712	Gray	1/EA	3' wide x 60' long	114 lbs	C, G, T
