

Edge-to-Edge Warranty

The importance of a properly designed roof edge system should not be underestimated. On average, the roof edge typically represents only 1% of a building's overall cost. However, improper design and installation of the roof edge can have catastrophic consequences. As one of the most vital parts of a roofing system, it's imperative that the perimeter edge system is included in your roof system warranty – that is why Carlisle has created the new “Edge-to-Edge” Golden Seal Total System Warranty.

Including Edge Metal in the Edge-to-Edge Total Roof System Warranty

1

SECUREDGE PRE-ENGINEERED EDGE METAL

UP TO 30 YEAR/120 MPH WARRANTY COVERAGE

Carlisle's SecurEdge prefabricated systems are the first line of defense against wind, ensuring a polished perimeter and long-lasting protection. Carlisle's unmatched line of perimeter edge products are available in a range of materials, profiles, and color options to meet any project's needs.

- » All systems are factory-fabricated and ANSI/SPRI ES-1 tested to meet International Building Code requirements, and many are FM approved.
- » Boosts productivity by allowing contractors to spend less time fabricating and more time on the roof, completing jobs.
- » Can be warranted up to 30 years under Carlisle's Edge to Edge Total System Warranty.
- » Finish warranties up to 30 years are available for Kynar® 500 and Hylar® 5000 PVDF finishes.

2

SURETITE CLEAT/SHOP FABRICATED COVER

UP TO 20 YEAR/90 MPH WARRANTY COVERAGE

Carlisle's SureTite Cleats are continuous 22-gauge Galvalume® cleats, available in 12' lengths. There are two cleat profiles: SureTite Drip Edge Cleat and SureTite Snap-On Fascia Cleat. The Drip Edge Cleat accommodates three edge profiles: Drip Edge, Gravel Stop and Flat Coping. The SureTite Snap-On Fascia Cleat accommodates 2 profiles: Snap-On Fascia and Tapered Coping. The combination of prefabricated cleat and shop fabricated cover allows the contractor to provide an ES-1 compliant edge profile without undergoing a certification process. The cleat is

delivered with the roofing materials, allowing the roof to be dried-in the day of installation so inspection can be scheduled. The cover can be shop-fabricated and added at a convenient time. The 12' lengths with pre-slotted fastening holes and provided fasteners reduce the amount of labor needed for installation.

3

SHOP-FABRICATED EDGE METAL

UP TO 20 YEAR/90 MPH WARRANTY COVERAGE

Carlisle's Metal Flat Sheet Program offers authorized applicators the opportunity to include shop-fabricated edge metal in Edge-to-Edge Total System Warranties. All shop-fabricated profiles must comply with Carlisle's published specifications and details. Refer to the Edge Metal section of the Carlisle Specification Supplement (G-11-18).

Carlisle Flat Sheets

Authorized applicators can shop-fabricate Carlisle SynTec flat sheets and submit for Edge-to-Edge Warranty inclusion.
