

CAV-PRIME Membrane Primers

Carlisle's CAV-PRIME system features primer in pressurized cylinders for faster application and less waste. The CAV-PRIME backpack, applicator attachment, and 3-foot extension gun make applying primer to seams and areas where Pressure-Sensitive flashing is used up to 3 times faster than dunking a roller in a pail.

FEATURES AND BENEFITS

Reduces Labor and Waste:

- » Quick, one-person application with spray gun and applicator attachment eliminates dunking a roller and moving a pail around the roof
- » Backpack available to make application even faster and easier
- » Increased coverage rate vs. traditional application of primer in pails

Eliminates Waste:

- » No need to worry about primer curing in pails that are improperly sealed.
- » Container eliminates potential spills or kicked-over cans of primer that create a mess and waste product.

CAV-PRIME Primers and Accessories

Product Description	Part #	Weight/Size	Coverage
CAV-PRIME Sure-Seal® HP-250	341445	27 lbs.	1,540 SF/cylinder
CAV-PRIME Low-VOC EPDM & TPO Primer	341449	32 lbs.	1,760 SF/cylinder
CAV-PRIME Hose & Gun Cleaner	341407	8 lbs.	N/A
CAV-PRIME Backpack	341898	6 lbs.	N/A
CAV-PRIME Applicator Attachment Kit	341228	1 lbs.	N/A
Spray Gun w/ 3' Extension	341897	2 lbs.	N/A
6-foot Hose	304302	1 lbs.	N/A

ACCESSORIES

- 1 Spray Guns and Hoses** – CAV-PRIME 3-foot extension guns are available to prevent having to bend over while applying primer. For the best ergonomics, 3-foot spray guns can be coupled with 6-foot hoses. Spray gun with 24" extension and 12-foot or 18-foot hoses can also be used.
- 2 Applicator Attachment** – The CAV-PRIME Applicator Attachment clamps onto the spray gun and is threaded to fit most standard roller cages.
- 3 Backpack** – The CAV-PRIME backpack makes it easy to carry a cylinder while applying long runs of primer for seams and cover strip.
- 4 CAV-PRIME Hose & Gun Cleaner (not pictured)** – Used to flush hoses and guns for storage, it can also be used to clean up excess primer on the roof or soak spray tips for cleaning.

*NOTE: NEVER USE LOW-VOC UN-TACK™ CLEANER WITH CAV-PRIME.
