

Quick Ship Program SecurEdge™ Perimeter Edge Metal

Carlisle SynTec Systems has created a Quick Ship program for its most popular SecurEdge perimeter edge metal products. Carlisle's Quick Ship program significantly reduces lead times on a variety of edge metal products, as detailed below. All Quick Ship products are ANSI/SPRI ES-1 tested to meet building code and are eligible for coverage under the Carlisle roof systems warranty.

SECUREEDGE 200/2000 SERIES*				
Product(s)	Sizes	Colors	Material	Typical Lead Time
 <p>SecurWeld® 200 TPO Coated Drip Edge</p>	2.5", 3", 4", 6" Note: No cleat provided on 2.5"	TPO White	TPO-coated 24-gauge galvanized steel	1-2 days
 <p>SecurWeld 200 TPO Skirted Drip Edge</p>

* Straight runs only, miters require additional lead time.

PROGRAM NOTES

- » Lead times are standard on orders up to 1,000 lineal feet. Lead times do not include transit time.
- » Cleats, fasteners, and concealed splice plates included.
- » Carlisle SecurEdge perimeter edge metal is custom-crated for enhanced protection during transit.
- » Carlisle SecurEdge perimeter edge metal is protected as part of a total system warranty. Please refer to each profile's Product Data Sheet for specific warranty wind speed options.
- » Carlisle SecurEdge perimeter edge metal is ANSI/SPRI ES-1 tested, improving the longevity of the perimeter edge and helping to protect the roofing system.
