

SecurEdge™ METAL

EX Snap-On Fascia

Overview

Carlisle's SecurEdge EX Snap-On Fascia combines custom engineering and superior performance with an attractive appearance. Fast and effortless installation eliminates the stripping-in typical of many other roof edge designs.

This top-of-the-line fascia provides the maximum protection against wind uplift damage that is available in today's roofing market. Rigorously tested, SecurEdge EX Snap-On Fascia is proven to be compliant with all relevant building codes.

Features and Benefits

- » Full snap-on design with heavy-duty extruded aluminum bar and 24GA Steel or 0.040" Aluminum cover
- » Bar includes pre-slotted holes for provided fasteners
- » Prefabricated miters and accessories ensure a proper fit and prevent the need for any field fabrication
- » Available in standard finishes and convenient sizes
- » ANSI/SPRI/FM 4435/ES-1 tested to comply with International Building Code
- » Factory Mutual approved
- » Miami Dade and Florida Building Code approved

Installation

For complete installation instructions, refer to Carlisle specifications and details, or visit <https://www.metalera.com/brands/carlisle>.

Finishes

- » Natural mill-finish aluminum
- » Pre-finished Kynar® standard and low gloss
- » Premium metallic Kynar
- » Anodized aluminum – clear, dark bronze, and black
- » Drexlume – Acrylic coated galvalume
- » HDG90 Galvanized Steel
- » Custom post-painted Kynar finishes available upon request
- » Please consult color chart for color and gauge/thickness availability, non stock combinations require minimum order and extended lead time

Quality Assurance

Tested per ANSI/SPRI/FM 4435/ ES-1 Test Methods RE-1 and RE-2 for evaluation of membrane securement strength. Fascia shall be certified by Carlisle to design pressures as indicated in the current edition of ANSI/SPRI ED-1 Design Standard for Edge Systems Used with Low Slope Roofing Systems. Meets International Building Code requirements. Miami-Dade approved to comply with the High-Velocity Hurricane Zone of the Florida Building Code.

Technical Services

Engineering and shop drawings, as well as long-form specifications and CAD details, are available from Carlisle. Product samples, detail sheets, color chips, and color charts are also available for submittal packages. For personal assistance with questions or submittals, contact Carlisle or your local manufacturer's representative.

Specifications

Fascia Model	'H' DIM	'X' DIM	No. of Nailers Covered
