

Polyester Reinforced VersiFleece® PVC/KEE HP Membranes
April 18, 2018

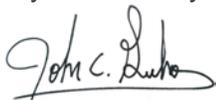

To: Versico Roofing Systems' Authorized Contractors

Versico Roofing Systems is pleased to introduce its Polyester Reinforced VersiFleece® PVC and KEE HP membranes. Polyester reinforcement provides greatly increased tear strength, breaking strength, and puncture resistance when compared to fiberglass reinforcement.

Polyester reinforced VersiFleece PVC and KEE HP will be manufactured at Versico's Greenville, IL plant. These membranes meet or exceed the physical requirements of Type III and Type IV per ASTM D4434 Standard Specification for Poly (Vinyl Chloride) Sheet Roofing. Versico's FRS (Fiberglass Reinforced) VersiFleece will still be available as a lead-time item.

If you have any questions, please contact your local Versico representative.
