

# MARKETING ANNOUNCEMENT

Authorized Applicator

**ID-2017-16**

**New Hercules® and SpeedTite® Roof Drains**

**November 15, 2017**

**To: Carlisle SynTec Systems' Authorized Applicators**

Carlisle SynTec Systems is pleased to announce the addition of the Hercules Retrofit Drain and the SpeedTite Roof Drain to its product offering. Both drains are compatible with all Carlisle roof membranes and feature a mechanical seal and a Carlisle Construction Materials branded strainer.

The Hercules Retrofit Drain consists of a one-piece spun aluminum body with a heavy-duty cast aluminum clamping ring and strainer for long-term durability. The Hercules Drain is easy to install and is available in 3", 4", 5", and 6" sizes.

The SpeedTite Roof Drain is made from durable aluminum components, features built-in vortex breaker technology that improves performance, and can be installed in minutes without special tools. The SpeedTite drain is available in 3" and 4" sizes.

Carlisle Hercules Drains	
Product Code	Description
330115	3" Hercules Drain
330117	4" Hercules Drain
330118	5" Hercules Drain
