

ALERT

1168 Low-VOC PVC Bonding Adhesive

February 2026

To: Carlisle SynTec Systems' Authorized Applicators

Carlisle SynTec Systems is pleased to introduce its new 1168 Low-VOC PVC Bonding Adhesive. This product is specifically formulated for Rule 1168 compliance in the South Coast Air Quality Management District (SCAQMD) in California. 1168 Low-VOC PVC Bonding Adhesive delivers high-strength adhesion between various substrates and PVC and/or KEE membranes and can be easily applied with a medium nap roller.
