

Manufacturer Capabilities

Carlisle SynTec Systems, the flagship division of Carlisle Construction Materials, LLC (CCM), is the largest supplier of commercial roofing products in the world. Carlisle produces high-performance EPDM, TPO, PVC, and FleeceBACK® single-ply roofing membranes, a full line of polyiso and expanded polystyrene insulation, and a wide variety of solvent-based and low-VOC adhesives. With more than 55 years of manufacturing experience and billions of square feet of roofing materials sold, Carlisle continues to lead the industry by providing the best products, services, and warranty options available today.

CARLISLE SYNTEC SYSTEMS: SETTING THE STANDARD FOR EXCELLENCE

U.S. SINGLE-PLY MANUFACTURING

Although Carlisle SynTec Systems has a wide breadth of available products to ensure water, air, and thermal protection for the entire building envelope, Carlisle SynTec Systems is not unique in its ability to provide a single-source solution for these materials. The below table is a comparison of product offerings from leading building envelope material manufacturers. It is in no way meant to be an exhaustive list of all available competition within the building envelope industry.

	Carlisle SynTec Systems	Competitor A	Competitor B	Competitor C	Competitor D
EPDM	✓	✓		✓	
TPO	✓	✓	✓	✓	
PVC	✓	✓	✓		✓
