

Flexible FAST™ Adhesive Disposal Guidelines

Carlisle's Flexible FAST Adhesive offers a shelf life of one year from the original manufacturing date when stored per Carlisle requirements.

When Flexible FAST reaches its shelf life, it should be disposed of in a licensed facility. Numerous licensed environmental waste management companies can assist with the disposal process.

Environmental Waste Minimization Inc. (EWMI) is a recommended partner due to their experience with waste management and commitment to environmentally responsible solutions.

EWMI service includes:

- » Planning
- » Pickup
- » Transportation
- » Disposal

EWMI guarantees a quick response and they are fully equipped to facilitate the transportation and disposal of Flexible FAST in the following packaging options:

- » Dual Cartridges
- » Dual Tanks
- » 5-Gallon Jugs
- » 15-Gallon Drums
- » 50-Gallon Drums

How to Dispose of Expired Flexible FAST Adhesive

- 1 Download the appropriate Flexible FAST Safety Data Sheet (SDS) from the Carlisle SynTec website.
- 2 Contact EWMI at (484) 275-6900 and ask for Inside Sales.
- 3 Provide EWMI with the Flexible FAST SDS and the amount of product that requires disposal.
- 4 Obtain a quote from EWMI for Flexible FAST disposal.
- 5 Schedule a pickup with EWMI.

Precautions

- » Do not reuse empty containers.
- » Steel drums must be emptied and can be sent to a licensed drum reconditioner for reuse, a scrap metal dealer, or an approved landfill.
- » Do not attempt to refill or clean containers since residue is difficult to remove.
- » Under no circumstances should empty drums be burned or cut open with a gas or electric torch as toxic decomposition products may be liberated.

For empty container recycling, please reference [Carlisle's container recycling program with Clean Earth](#).
