

ROOF GARDEN

Aluminum Drain Box

Overview

Carlisle's Aluminum Drain Box is manufactured from .125 gauge aluminum and is available in standard heights of 4", 8" and 12". Carlisle's Aluminum Drain Box is designed with slots to facilitate maximum drainage and features a removable lid to easily access roof drains for maintenance and inspections. Also available in stainless steel, custom heights and anodized colors.

Features and Benefits

- » Allows maximum drainage
- » Available in 4", 8" and 12" heights
- » Will not rust or corrode
- » Extremely durable

Installation

Carlisle's Aluminum Drain Box shall be loose laid over the protection fabric or sacrificial sheet of membrane. The Drain Box is held in place with the weight of the approved ballast material.

Review Carlisle specifications and details for complete installation information.

Precautions

Edging comes with a mill finish that is prone to oxidation. To minimize oxidation, Kynar® Coated Edging is available in multiple colors upon request for an additional cost.
