

Roof Condition Report with Proposal Writer

The rooftop endures more abuse from the elements than any other part of a building's exterior. As the building owner, you should know where you stand so you can prolong the roof's service life through maintenance and prepare for eventual upgrades and roof replacement.

That's why Carlisle SynTec has developed professional rooftop evaluation software perfect for creating quick and easy Roof Condition Reports.

A Carlisle Manufacturer's Representative can provide a Proposal Writer report that shows images of your roof and detailed pictures of crucial rooftop components. Also included is a comprehensive description of potential performance issues, the critical nature of those issues, as well as recommendations on how to repair potential problem areas.

PROPOSAL WRITER REPORTS INCLUDE:

- » Web-enabled GPS and mapping technology that provides a comprehensive view of the roof
- » Pictures of critical details
- » Recommendations on repair or re-roofing solutions based on the roof condition

IDENTIFY SMALL PROBLEMS BEFORE THEY BECOME BIG CONCERNS

- » Extend the performance and lifespan of the existing roof system
- » Ensure critical details are performing properly
- » Help prepare and budget for roof replacement or repairs

STEPS TO GETTING THE ROOF EVALUATION PROCESS STARTED

- Step 1** – Find a local Carlisle Manufacturer's Representative.
- Step 2** – Ask your rep to perform a roof evaluation using Proposal Writer.
- Step 3** – Review considerations and the Roof Condition Report with your rep.
- Step 4** – Receive a list of Carlisle Authorized Applicators who are qualified to make necessary repairs or complete a re-roof.
