

MARKETING ANNOUNCEMENT

Authorized Applicator

ID-2019-17
New Seam Probes
November 12, 2019

To: Carlisle SynTec Systems' Authorized Applicators

Carlisle SynTec Systems is pleased to introduce its redesigned Seam Probe, which features a more durable steel tip, a larger and more ergonomic handle, and threads that allow it to be used with a stand-up pole. This new design is ideal for checking the integrity of heat-welded seams on Sure-Weld® TPO and Sure-Flex™ PVC and KEE HP membranes.

Product Code	Description	Stocking Locations
307686	Seam Probe	C, G, S, T
C = Carlisle, G = Greenville, S = Senatobia, T = Tooele		

If you have any questions or need more information, please contact your regional manager.

Sincerely,

A handwritten signature in black ink, appearing to read "ABi".
