

DESIGN ADVISORY

June 2022 BIM Release
June 30, 2022

To: Versico Roofing Systems' Independent Sales Representatives, Distributors, and Authorized Contractors

Versico has seen steadily increasing interest in Building Information Modeling (BIM) by Architecture, Engineering, and Construction (AEC) firms to better manage projects during design, construction, and building operations. Versico is pleased to announce the first phase in a series of BIM model launches to support the design and construction industries.

This phase focuses on a variety of common Versico roofing assemblies and allows users to model various configurations and quickly access product and specification information directly from the model.

VersiGard® Non-Reinforced, VersiGard® White Non-Reinforced, VersiGard® Reinforced, VersiGard® QA, & VersiFleece® RL™ EPDM Roof Families

The information contained within each model is called a family and there is a family for each of the membrane brands: VersiGard® EPDM, VersiWeld® TPO, VersiFlex™ PVC, and VersiFlex KEE HP.

Below is a summary of the included roof family types per membrane file.

VersiGard & VersiGard White Non-Reinforced, VersiGard Reinforced, VersiGard QA, and VersiFleece® RL™ EPDM Membranes					
Family Types					
Fully Adhered	Self-Adhered EPDM	Mechanically Fastened	Ballasted	VersiFleece RL EPDM	Traditional Roof Garden with VersiGard Non-Reinforced EPDM

VersiWeld, VersiWeld QA, VersiFleece, and VersiFleece RL TPO Membranes							
Family Types							
Fully Adhered	Self-Adhered TPO	Mechanically Fastened	Induction Welded	VersiFleece TPO	VersiFleece RL TPO	Traditional Roof Garden with VersiWeld TPO	Traditional Roof Garden with VersiFleece TPO

VersiFlex, VersiFleece, and VersiFleece RL PVC Membranes						
Family Types						
Fully Adhered	Mechanically Fastened	Induction Welded	VersiFleece PVC	VersiFleece RL PVC	Traditional Roof Garden with VersiFlex PVC	Traditional Roof Garden with VersiFleece PVC

DESIGN ADVISORY

VersiFlex and VersiFleece KEE HP Membranes					
Family Types					
Fully Adhered	Mechanically Fastened	Induction Welded	VersiFleece KEE HP	Traditional Roof Garden with VersiFlex KEE HP	Traditional Roof Garden with VersiFleece KEE HP

These families will be hosted on the Versico website starting on June 30, 2022.

Please direct questions to Design Services and stay tuned for additional releases to come.

Sincerely,

Craig A. Tyler
Architect, Design Services
