

VEGETATED SEDUM MATS

Overview

Versico's Vegetated Sedum Mats are a quick and cost-effective method of obtaining instant vegetative coverage on your building's Roof Garden. Applied in a similar manner to single-ply membrane, Versico's Vegetated Sedum Mats ensure a no-hassle installation and immediate vegetative coverage.

Features and Benefits

- Instantaneous vegetative coverage
- No waiting for plants to grow in
- Greatly reduced plant maintenance
- Easy installation

Size and Coverage Rate

- 25 square feet per mat
- 48" wide by 75" long
- 5.5 lbs/ft² fully saturated
- Approximately 100 lbs. per roll, as delivered
- Minimum 85% vegetative coverage

Installation

The rolls of Versico's Vegetated Sedum Mats are hoisted to the rooftop and unrolled over a minimum 2½" of Versico's pre-moistened Growth Media. The rolls are placed adjacent to each other with no overlap. The Roof Garden is then irrigated until fully saturated.

REVIEW CURRENT VERSICO SPECIFICATIONS AND DETAILS FOR SPECIFIC INSTALLATION REQUIREMENTS.

Plants

Versico's Vegetated Sedum Mats come pre-vegetated with many different varieties of sedums. Some of the most commonly found varieties include:

- Sedum Kamtschaticum
- Sedum Spurium 'John Creech'
- Sedum Spurium 'Tricolor'
- Sedum Spurium 'Red Carpet'
- Sedum Spurium 'Fuldaglut'
- Sedum Acre 'Gold Moss'
- Sedum Sexangular
- Sedum Album 'Coral Carpet'
- Sedum Reflexum 'Blue Spruce'
