

**Excellence in Single-Ply** 

# What is ESP?

Established in 1998 as a means to recognize Carlisle SynTec Systems' most loyal and dedicated Authorized Applicators, the ESP award has become one of the most recognizable and prestigious achievements in the commercial roofing industry. Inclusion in ESP is an acknowledgment that an Authorized Applicator is an industry leader. As membership in this exclusive group has grown throughout the years, one thing has remained the same – the bond between Carlisle and all of its ESP applicators is solidified by a mutual commitment to roofing excellence.

ESP was established to acknowledge and incentivize a specialized set of Carlisle Authorized Applicators who consistently surpass Carlisle's benchmarks. Conferred on an annual basis, ESP status is exclusively attained by the most accomplished Authorized Applicators, offering customers assurance that they have partnered with the very best in the industry. This tier receives customized marketing support and an annual incentive trip.

The ESP qualification period begins on November 1st and ends on October 31st.

Points are determined from NOC square feet submitted during this period, not when the job was completed.
