

ALERT

Sure-Flex™ PVC and KEE HP Light Gray Accessories February 25, 2025

To: Carlisle SynTec Systems' Authorized Applicators

Carlisle SynTec Systems is pleased to announce additions to its Light Gray PVC and KEE HP accessory products. Light Gray accessories are manufactured in the US, to match Light Gray Sure-Flex PVC and KEE HP membranes. This expansion allows for a complete roofing system to showcase the appeal of Light Gray PVC and KEE HP.

The advantages of using a Light Gray system go beyond initial aesthetics. Light Gray systems can hide dirt accumulation while still contributing to a building's overall energy efficiency. Additionally, Light Gray Sure-Flex

KEE HP membranes meet California Title 24 requirements and can also contribute to LEED® credits.
