PRODUCT UPDATE

InsulBase® Product Updates
October 2026

To: Carlisle SynTec Systems' Authorized Applicators

Due to current GRF facer supply constraints following the sudden and unexpected closure of a manufacturer in the supply chain, InsulBase will temporarily ship without ReadyFlash Technology. During this period, you will receive boards with tan facer on both sides.

We are actively working to restore normal supply and resume full ReadyFlash production as soon as possible, and we appreciate your patience as we manage this short-term disruption.

Importantly, this adjustment does not impact the performance, installation, or quality of the board. InsulBase Polyiso products continue to meet standard installation practices and remain compliant with existing code and warranty requirements. Carlisle SynTec Systems' SecurShield® and SecurShield HD ReadyFlash products remain unaffected by this supply constraint.

We appreciate your continued support of Carlisle SynTec Systems. If you have any questions regarding this announcement, please contact your local Manufacturer's Representative.

Sincerely,

Wes Sherrer
Senior Manager, Product Management - Insulation
