

VERSIWELD® TPO

Productivity Checklist

Increase your productivity by taking advantage of Versico Roofing Systems' labor-saving products. Use this checklist as a guide.

TPO Membranes

- TPO with APEEL™ Protective Film** – eliminates the need to power-wash TPO membrane for a potential cost savings of up to 60%
- Quick-Applied TPO** – reduces installation time by 70% compared to other fully adhered TPO systems
- Wide-width TPO Rolls** – on adhered and induction welded systems reduce the amount of time spent welding seams and save time loading, staging, and positioning rolls by covering more square footage with each roll

Flashings

- Prefabricated Inside/Outside Corners, Universal Corners, and T-Joint Covers** – eliminate field-fabrication for up to 400% labor savings
- 10" RUSS** – eliminates the need to use half-sheets in mechanically fastened systems
- Prefabricated Split Pipe Seals, Square Tube Wraps, and Curb Wrap Corners** – eliminate the need for T-Joint Covers at splice intersections

Cover Boards

- SecurShield HD Plus** – reduces fasteners by 50% (from 16 to 8) for an FM 1-90 uplift requirement
- SecurShield HD** – much lighter and easier to cut than gypsum-based cover boards and achieves UL 790 Class A combustible deck assembly rating without the use of a fire-rated slip sheet or gypsum cover board
- SECUROCK® and SecurFast™ Plates** – fewer fasteners required to achieve FM 1-90 wind uplift rating
 - ¼" 16 fasteners down to 10 38% reduction
 - ⅜" 16 fasteners down to 8 50% reduction
 - ½" 10 fasteners down to 8 20% reduction
 - ⅝" 8 fasteners down to 6 25% reduction

Primer

- CAV-PRIME TPO Primer** saves time priming long runs of TPO P/S Cover Strip and prevents spills or primer gelling in cans

Bonding Adhesive

- CAV-GRIP™ 3V Low-VOC Adhesive/Primer to Adhere TPO Membranes to Vertical Walls and Horizontal Substrates** – minimizes labor compared to traditional installation using bonding adhesive

Fasteners

- Pre-Assembled HPVX Fasteners and Plates** – eliminates handling of two separate parts
- Induction Welded Fastening Systems** – adhesive-coated fastening plates eliminate the need for perimeter sheets in mechanically attached systems and reduce the number of fasteners and plates required compared to conventional mechanically attached systems
- AccuTrac Kits** – stand-up tool enhances productivity up to 38%
- HPV-ASAP Fasteners** – pre-assembled plate and screw eliminates handling of two separate parts

Insulation Adhesives

- Flexible DASH** – eliminates the need to pre-drill into concrete or gypsum decks

Air and Vapor Barriers

- VapAir Seal™ MD** – eliminates the need for gypsum cover boards on steel decks
- CAV-GRIP 3V Low-VOC Adhesive/Primer** – spray installation, quick setup time, no waiting for flash-off

Metal Edging

- Skirted Drip Edge** – eliminates field welding of cover strip on the vinyl-coated metal
- Coated Metal** – eliminates the need to strip in metal with a separate piece of PS Cover Strip
- VersiTrim™ 200 and 300** – eliminate the need to strip in metal flanges
