

VersiFleece® Fire-Rated TPO Roofing System
April 19, 2018

To: Versico Roofing Systems' Authorized Contractors

Versico Systems is pleased to introduce its VersiFleece Fire-Rated (FR) TPO roofing system. This system uses Versico's patent-pending optimized fleece to provide a UL Class A fire rating for direct application to wood decks. The VersiFleece FR TPO system is approved for mechanically attached applications and eliminates the need for multiple layers of base sheets or gypsum thermal barriers. The VersiFleece FR TPO system offers a variety of features and benefits, including:

- Labor savings of up to 25%
- No application temperature restrictions
- No VOCs or odors
- Greater puncture resistance than modified bitumen
- 67% fewer seams than modified bitumen
- Excellent resistance to hail and punctures
- 115-mil membrane thickness adds toughness and durability
- 2" hail coverage available (Detail FR-2)
- UL Class A approval for direct application to combustible decks

NOTE: VersiFleece FR TPO membranes are only approved for mechanically attached applications and are not approved for fully adhered applications.

VersiFleece FR TPO Membrane				
Product Code	Description	Size	Weight	Stocking Location
330794	WHITE VERSIFLEECE FR TPO-115-mil	10' x 50'	203 lbs	Tooele, UT
