

**VersiFleece® AC TPO Availability  
March 31, 2023**

**To: Versico Roofing Systems' Authorized Contractors**

Versico Roofing Systems is pleased to announce that effective immediately, VersiFleece AC TPO membranes will be available for order again. Due to disruptions with Versico's fleece suppliers, orders for this product had been put on hold temporarily.

As a reminder, VersiFleece AC TPO is compatible with Hot-Mopped or Cold-Applied adhesives and is available in total sheet thicknesses of 120, 135, and 155 mils. It is ideal for re-covering aged smooth-surface BUR, mineral cap sheets, or SBS-modified bitumen roofs. VersiFleece AC TPO can be used in conjunction with Versico's Modified Base Sheets for a multiple-ply, redundant system. AC TPO is also approved for use in mechanically fastened systems. See below for product codes and stocking information.

<b>VersiFleece AC TPO Membrane</b>
