

CARLISLE CONSTRUCTION MATERIALS

Training Center

Versico's 68,000-square-foot Training & Education Center (TEC) is the commercial roofing industry's first and only dedicated training facility. The TEC, which opened in 2018, hosts a wide range of no-cost training and certification classes for contractors, architects, consultants, and other construction professionals. Featuring a 135-seat auditorium and five indoor roofer training areas, the TEC is designed to provide year-round opportunities for hands-on learning in a comfortable, indoor setting.

Versico Roofing Systems Training Opportunities

Contractor Certification Seminar

The Certification Seminar is a prerequisite to becoming a Versico Certified Contractor. The class is also open to Versico-recognized sales representatives, distributors and manufacturers who would like to gain an overall understanding of roofing installations and best field practices.

Certification Seminar Highlights:

- 2.5 Day Training
- Classroom and hands-on training on how to complete common details including curbs, corners, and roof penetrations
- Product Overview
- Certificate of Completion

Features:

- In-depth Detail installations
- Overview of membrane systems
- Specialty installations and best practices
 - Fleeceback membranes
 - Induction Welding
 - Urethane Foam Adhesives

Foreman's Workshop

Foreman's Workshop is intended for individuals who already possess the skills to install single ply systems, but need a better understanding of inspection guidelines, customer relations and labor-saving techniques. Instructions and guidance provided by seasoned FSR Trainers.

Foreman's Workshop Highlights:

- 5-Day Training
- Sessions offered in the Spring Season
- Primarily Hands-on Training
- Smaller Class size
- Certificate of completion

Features:

- Complete single-ply roof system installations
- Vapor Barrier installations
- Insulation attachment patterns
- New product showcasing and hands-on training
- Inspection, investigation and repair procedures

Benefits of a Versico Training Course

- Comprehensive understanding of Versico system products and applications
- Install a roofing system from start to finish under Versico supervision
- Reduced number of RFW (repair for warranty) /punch list items on final inspections
- Fewer claims on installed roof systems
- Roofing consultants and specifiers increasingly prefer trained contractors
- Versico's experienced trainers translate complex information in a stimulating, interactive, hands-on learning environment
