

MARKETING ANNOUNCEMENT

Authorized Applicator

Anchor Products® U-Anchors® and Accessories January 2026

To: Carlisle SynTec Systems' Authorized Applicators and Distributors

Carlisle SynTec Systems is excited to announce the addition of Anchor Products U-Anchors and select accessories to our product offering. This new line gives you a single-source, code-compliant, and watertight solution for securing rooftop equipment and accessories directly to the roof deck. Made in the USA, Anchor Products' patented U-Anchors are lightweight and quick to install (typically in under five minutes) and are built to last the life of the roof system, simplifying detailing and reducing long-term maintenance needs.

Carlisle will be offering Anchor Products' two most common anchor models:

- **U2400** – One 3/8" 304 stainless steel bolt welded to a 5.5" galvanized steel plate
- **U3400** – Two 3/8" 304 stainless steel bolts welded to an 11" x 5.5" galvanized steel plate

Both options are available with Carlisle's EPDM, TPO, and PVC/KEE HP flashing in all standard colors and in a 60-mil thickness (80-mil flashing is available upon request with extended lead times). TPO and PVC/KEE HP flashings are factory induction-welded to the plate, while EPDM models include a separate pressure-sensitive flashing for field application.

In addition to the anchors, Carlisle will also be introducing three accessory solutions to accompany the launch, including: the **HVAC Tie-Down Kit**, which provides additional securement for rooftop HVAC units; the **Guy Wire Tie-Down Kit**, which provides stability for rooftop accessories such as vent stacks; and the **Snow Retention System**, an engineered and tested solution for higher-slope single-ply systems which prevents snow from sliding off the roof. These accessories establish Carlisle's ability to provide safe, durable, and code-compliant rooftop securement solutions from a single source. When purchased through Carlisle, the anchors are covered under Carlisle's Watertight Warranty for added assurance and long-term peace of mind.

Below is a table with product codes and other important information:

Product Code	Carlisle SAP Product Description	Minimum Order Quantity	Typical Lead Time
363806	Anchor Products U2400-TPO White	Carton = 10 anchors	1-2 weeks
363923	Anchor Products U2400-TPO Gray	Carton = 10 anchors	2-3 weeks
363924	Anchor Products U2400-TPO Tan	Carton = 10 anchors	2-3 weeks
363295	Anchor Products U2400-TPO Misc.	Carton = 10 anchors	4-6 weeks
363296	Anchor Products U2400-PVC/KEE White	Carton = 10 anchors	1-2 weeks
363927	Anchor Products U2400-PVC/KEE Gray	Carton = 10 anchors	2-3 weeks
363928	Anchor Products U2400-PVC/KEE Tan	Carton = 10 anchors	2-3 weeks
363929	Anchor Products U2400-PVC/KEE Misc.	Carton = 10 anchors	4-6 weeks
363940	Anchor Products U2400-EPDM Black	Carton = 10 anchors	2-3 weeks
363941	Anchor Products U2400-EPDM White	Carton = 10 anchors	2-3 weeks
363942	Anchor Products U2400-EPDM Misc.	Carton = 10 anchors	2-3 weeks
363943	Anchor Products U3400-TPO White	Carton = 10 anchors	1-2 weeks
363944	Anchor Products U3400-TPO Gray	Carton = 10 anchors	2-3 weeks
363945	Anchor Products U3400-TPO Tan	Carton = 10 anchors	2-3 weeks
363946	Anchor Products U3400-TPO Misc.	Carton = 10 anchors	4-6 weeks
363947	Anchor Products U3400-PVC/KEE White	Carton = 10 anchors	2-3 weeks
363948	Anchor Products U3400-PVC/KEE Gray	Carton = 10 anchors	2-3 weeks
363949	Anchor Products U3400-PVC/KEE Tan	Carton = 10 anchors	2-3 weeks
363952	Anchor Products U3400-PVC/KEE Misc.	Carton = 10 anchors	4-6 weeks
363953	Anchor Products U3400-EPDM Black	Carton = 10 anchors	2-3 weeks
363954	Anchor Products U3400-EPDM White	Carton = 10 anchors	2-3 weeks
363955	Anchor Products U3400-EPDM Misc.	Carton = 10 anchors	2-3 weeks
