What makes a single-ply roof ideal for hotels?

Versico's high-quality, low-maintenance EPDM, TPO, and PVC single-ply roofing systems provide excellent long-term performance and require minimal maintenance, are quick to install, and are backed by industry-leading, transferable warranties up to 30 years in length, providing long-term peace of mind.

Versatility of single-ply

Versico's single-ply roofs have been installed on a wide range of buildings around the world, including schools, warehouses, hospitals, retail facilities, and residential complexes. Versico's EPDM, TPO, and PVC membranes are available in a variety of thicknesses, widths, and colors, which means that Versico has a membrane for almost any roofing project, new and re-roof.

- **VersiGard® EPDM** combines unparalleled durability with top-notch weathering characteristics, making it the ideal roofing system for regions with mild to extremely cold temperatures.
- **VersiWeld® TPO** is highly reflective and provides industry-leading protection against UV exposure, making it a good fit for mild to extremely hot climates where cooling costs significantly outweigh heating costs.
- **VersiFlex™ PVC** is highly reflective and offers excellent resistance to fire, chemicals, acids, oils, and animal fats, making it an excellent choice for warm climates as well as restaurants, schools, and critical facilities.

Why choose Versico?

- Versico can evaluate existing roofs anywhere in the country.
- Versico can write repair or replace specifications for your roofing system.
- Versico has a large portfolio of qualified roofers with a documented track record that we can provide to you.
- Versico provides best in class technical support in the field that can be available throughout the project and at final inspection.
- Variety of warranty options ranging from 5 to 30 years that includes labor and material with no dollar limit.
