

# VERSIGARD® EPDM

## A History of Performance

### Why Choose VersiGard EPDM?

Versico is proud to provide its customers with advanced roofing solutions; a commitment to quality and innovation means decades have been spent improving upon existing products and developing new product lines. However, one thing that has remained constant over the years is the watertight performance, dependability, and durability of VersiGard EPDM membranes. No other single-ply roof system has a track record or a history that matches that of EPDM, which is why it remains the low-slope roofing industry's material of choice.

### Built to Last

- Unmatched weatherability
- Expands and contracts – ideal for various climatic conditions
- Virtually immune to ozone, UV radiation and freeze/thaw cycles
- Low installation, maintenance and overall lifecycle costs
- Industry leading UV resistance of 41,580 kJ/m<sup>2</sup>

### Numbers Don't Lie

- Versico has over 93,000 warranted EPDM roof systems installed throughout the U.S.
- Versico has more than 1.3 billion square feet of warranted EPDM roof systems installed throughout the U.S.
- First manufacturer to exceed 17.5 billion square feet of EPDM membrane production
- First manufacturer to offer white EPDM membrane

### Time, Labor & Cost Savings

- A wider variety of sheet thicknesses and widths compared to thermoplastic membranes allows for faster installations
- Over 60 VersiGard EPDM membranes are available with factory-applied Quick-Applied Tape (VersiGard QAT), which greatly reduces seaming time and improves seam quality and consistency
- Quick-applied, prefabricated accessories are available for virtually any penetration or detail
- VersiGard Non-Reinforced EPDM (Black and White) and VersiGard Black Reinforced EPDM are available with Quick-Applied Technology (VersiGard QA EPDM)
- Ballasted systems qualify as cool roof alternatives
- EPDM offers the lowest global warming potential, acid rain and smog impact according to a study using EPA's TRACI model

**A SINGLE SOURCE FOR SINGLE-PLY ROOFING**
