

DensDeck® StormX™ Prime Roof Board
January 20, 2021

To: Versico Roofing Systems' Authorized Contractors

Versico Roofing Systems is pleased to introduce DensDeck StormX Prime Roof Board, a reinforced gypsum cover board with an enhanced, moisture-resistant core and coated glass mat facers. DensDeck StormX is extremely durable and is approved for use in assemblies meeting FM's Very Severe Hail (VSH) Classification.

DensDeck StormX offers a variety of features and benefits, including:

- Added protection from excessive foot traffic, wind, and hail
- First gypsum cover board to meet FM VSH classification under single-ply membranes
- Approved as a thermal barrier over combustible and non-combustible roof decks
- Achieves UL 790 Class A and FM Class 1 approvals
- Manufactured to meet the "Type X" requirements of ASTM C1177
