

# CARLISLE'S AUTHORIZED APPLICATORS MARKETING ANNOUNCEMENT

**FB-2011-20**

**Heated Predator Training Video  
October 20, 2011**

To: Carlisle Authorized Applicators

Carlisle is pleased to introduce its new Heated Predator Training video. This two-disc DVD guides rig owners and operators through the proper operation and maintenance of Carlisle's Heated Predator and the Graco Fusion Gun.

Subjects covered in this video include:

- Start-up
- Shut-down
- Weekly Maintenance
- Storage
- Troubleshooting
- Changing Material Drums
- Material and Handling
- Transfer Pumps
- Material Flow
- Air System
- Electrical System
- Fusion Gun (Maintenance)

Carlisle's Heated Predator is a proven performer for FleeceBACK® projects with FAST™ Adhesive. By following this instructional video, applicators can be fully confident that their spray rig will operate at an optimal level on each project. This is an excellent tool to train new hires or those people responsible for operating and maintaining a Heated Predator.

To get your copy of this valuable tool, please contact your local Carlisle Manufacturer's representative.

Sincerely,

Kristopher A. Costas  
FleeceBACK Sales & Technical Specialist
