

CARLISLE'S AUTHORIZED APPLICATORS MARKETING ANNOUNCEMENT

PVC-2017-06

Sure-Flex™ PVC KEE HP Inside and Outside Corners

March 24, 2017

To: Carlisle SynTec Systems' Authorized Applicators

Carlisle SynTec Systems is pleased to announce updates to its Sure-Flex PVC Inside and Outside Corners. These products are now white/gray and white/tan so that if material is left over from a gray or tan job, it can also be used on white jobs. Both sides of Carlisle's PVC Inside and Outside Corners are manufactured using KEE HP top-ply formulation for enhanced weatherability and performance at critical transition areas and edge details.

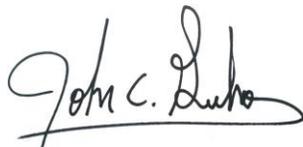

New product code	New description	Packaging	Stocking locations
329284	INSIDE CORNERS - WHITE/GRAY	12/carton	C, G, T
329285	INSIDE CORNERS - WHITE/TAN	12/carton	C, G, T
329286	OUTSIDE CORNERS - WHITE/GRAY	12/carton	C, G, T
329287	OUTSIDE CORNERS - WHITE/TAN	12/carton	C, G, T

C – Carlisle, G – Greenville, T- Tooele

Manufactured from non-reinforced membrane, Carlisle's PVC Inside and Outside Corners are quick and easy to install, form easily to out-of-square corners, and enhance aesthetics on completed installations.

If you have any questions, please contact your Carlisle Manufacturer's Representative.

Sincerely,

John C. Greko
PVC Product Manager
