

How to navigate and use the Digital Binder:

<https://www.versico.com/Document-Viewer/complete-digital-binder-for-epdm-tpo-pvc-kee-hp-versifleece-versifleece-ac-roofing-systems-in-3-part-csi-format/oiajAUYE30iVWHRWQqY8Og>

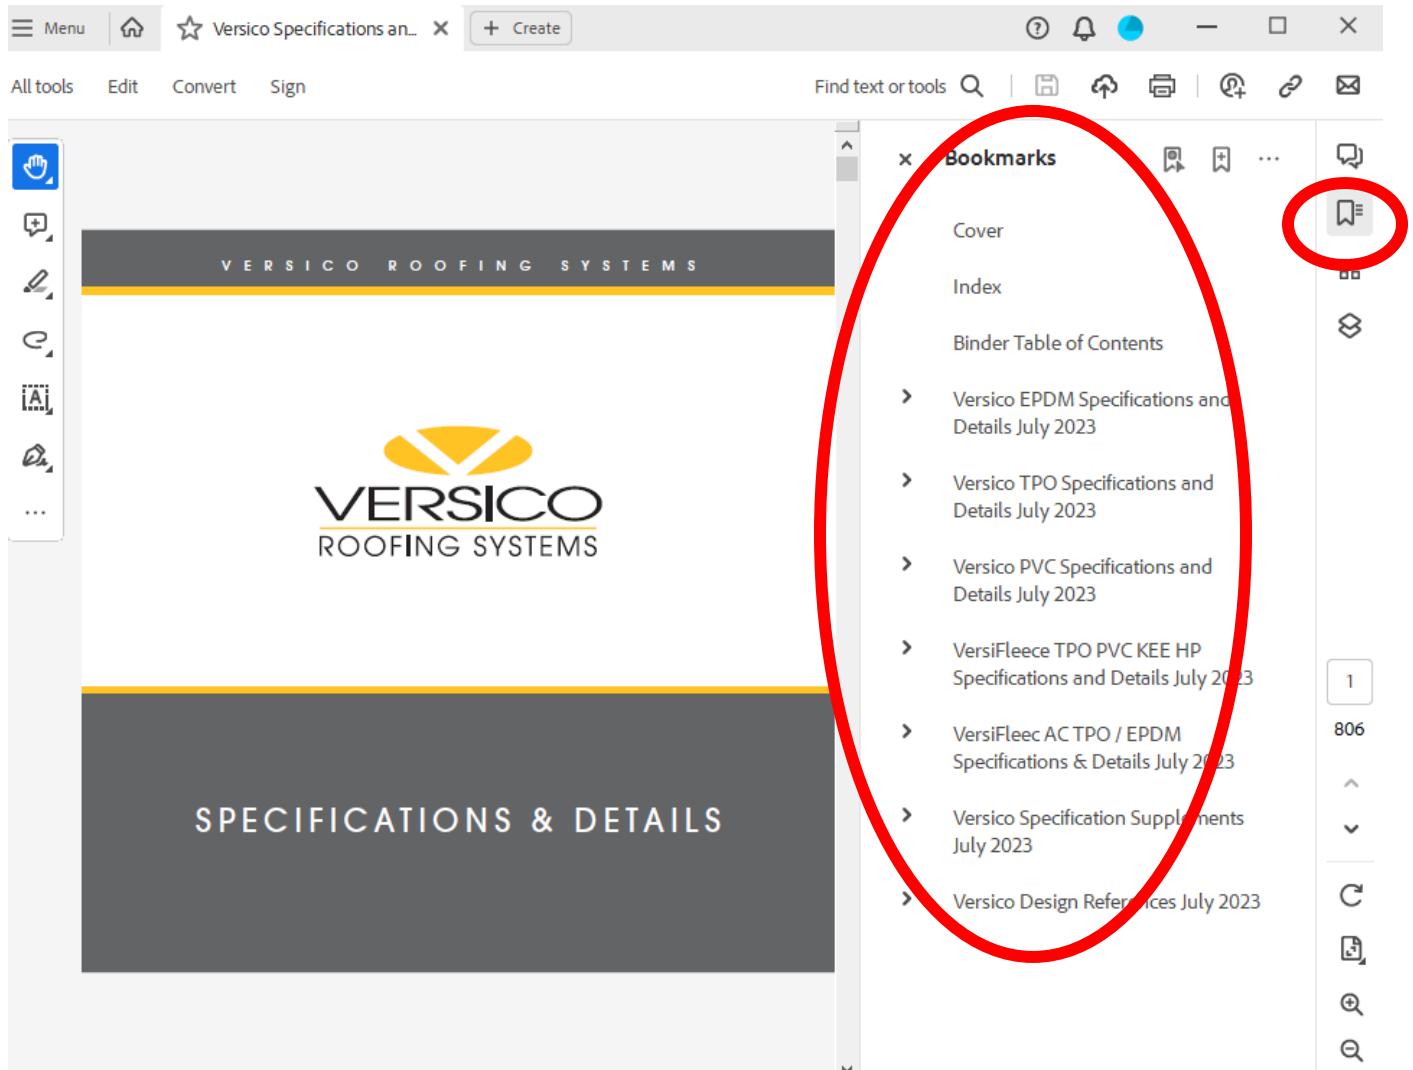

The digital binder includes hyperlinks in the table of contents to navigate through the binder. You can also insert the number 2 in the page box at the top of the pdf viewer to get back to the main index. Then click back on the membrane, which takes you to the Table of contents of the membrane and click to the chapter or table of contents of the installation details, etc.

Below – my view when I open a saved copy on my computer and the other view is the view you see when on the website.

You can also open the bookmarks which will open a list of chapter names, detail names, etc. to navigate.
Below: a saved copy opened with bookmarks open:

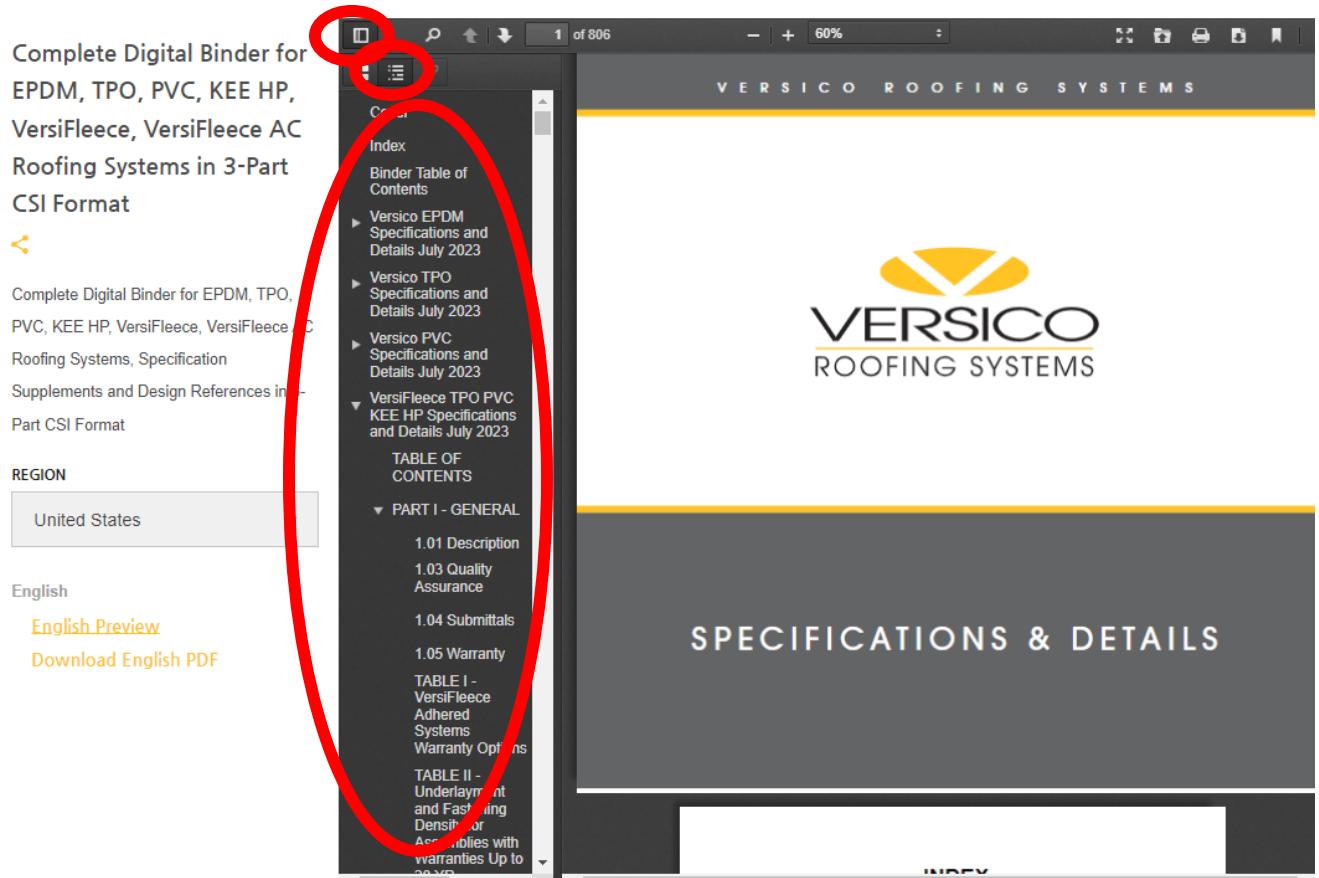

The screenshot shows a PDF viewer interface with the 'Bookmarks' sidebar open. The sidebar header 'Bookmarks' is circled in red. The sidebar lists several items, each preceded by a right-pointing arrow:

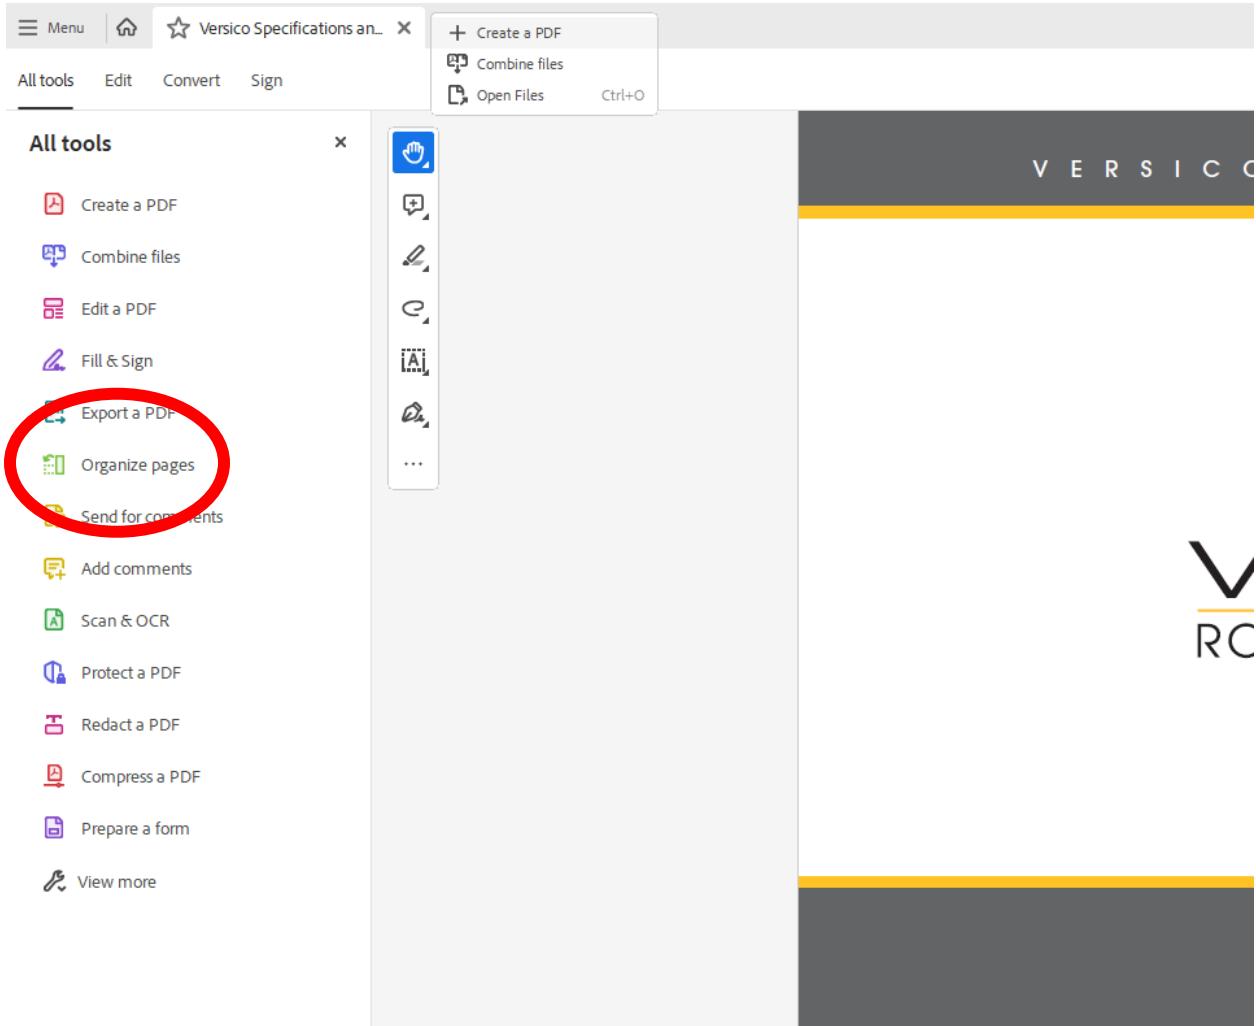

- Cover
- Index
- Binder Table of Contents
- > Versico EPDM Specifications and Details July 2023
- > Versico TPO Specifications and Details July 2023
- > Versico PVC Specifications and Details July 2023
- > VersiFleece TPO PVC KEE HP Specifications and Details July 2023
- > VersiFleec AC TPO / EPDM Specifications & Details July 2023
- > Versico Specification Supplements July 2023
- > Versico Design References July 2023

The main content area displays the 'VERSICO ROOFING SYSTEMS' logo and the text 'SPECIFICATIONS & DETAILS'.

And the website view with the bookmarks open:

As far as saving out pages – you will need to save the document to your computer and use “Tools” → “Organize”.

This gives you a thumbnail view of the docs. Then click on the page you want or hold the ctl key to click on additional pages.

Then right click and pick extract. Then you save those extracted pages and give it a name. I highlighted 5 pages below.

Then extract to a new file.
